Commercial HVAC & Refrigeration Projects - Repair Maintenance

CAPABILITY STATEMENT

About us

Air Temp Cooling Solutions is a leading provider of innovative HVAC and Commercial Refrigeration solutions, dedicated to delivering high-quality commercial and Commercial Refrigeration cooling services. Established in Adelaide in 2017, our mission is to offer reliable and energy-efficient cooling solutions, alongside exceptional maintenance services post-installation.

With a proven track record in designing, installing, and maintaining advanced cooling systems, we understand the critical importance of maintaining optimal environmental conditions. We extend our expertise across various sectors, including Healthcare, Hospitality, Retail, Food, Industrial, and Residential.

Our multi-faceted approach allows us to manage projects from initial design through to construction and ongoing maintenance, ensuring flexible and high-quality service delivery. This comprehensive support is why businesses and homeowners alike choose Air Temp Cooling Solutions for their HVAC and Refrigeration needs.

Our Team

Our dedicated team comprises highly experienced professionals with specialized skills in the HVAC industry. With 20 years of experience, we are renowned for our commitment to timely project completion, superior workmanship, and cost-effective, customized solutions. We foster a culture of innovation to develop groundbreaking solutions, continuously reinvesting in our business and industry advancements.
